U. S. COLONIAL COINS

NOTE: U. S. Colonial coins were ignored for many years. Finally they are emerging from obscurity and attracting the interest they should have generated years ago. They were much more popular at the beginning of this century than they are today because there was more time for study and research. The collector who has a little imagination will really enjoy the series. In addition we believe they will prove to be an excellent investment, for they are truly rare.

THE RARE 1937 REEDED EDGE CENT AND NICKEL

- 619 **1937..1c and 5c. Reeded edge.** Brilliant Uncirculated. These oddities are believed to have been made privately by a Philadelphia gentleman. Although the work is excellent, they obviously were not reeded in the U.S. Mint. For years they have been perennial favorites with the old-time collectors and they feel that only 50 sets were made and then the machinery destroyed. Probably worth \$100.00 or so.

AN OUTSTANDING COLLECTION OF

LIBERTY STANDING QUARTERS

NOTE: The following collection of Liberty Standing Quarters is one of the finest sets we have ever handled. Practically every coin is a Full Head and an outstanding strike. It is our opinion, based on experience and using this set as a guide, that some of the years did not come with absolute full heads. But knowing the time and searching spent assembling this set we feel it is representative of some of the finest known examples of this series. The Guidebook suggests and we concur that full head Standing Liberty Quarters are worth more than the prices listed in that book.

RARE 1916 LIBERTY STANDING QUARTER

Lot No. 771

- 771 **1916** First year of issue. Brilliant Uncirculated, lightly toned. Sharply struck. One of the nicest examples we've seen in quite some time. The Guidebook suggests \$1,175.00 for this coin.
- 772 1917 Type I. Brilliant Uncirculated, light toning. Full head, sharply struck. A superb example.
- 773 1917 'D' Type I. Brilliant Uncirculated, light toning. Full head.
- 774 1917 'S' Type I. Brilliant Uncirculated. Full head, sharp strike.
- 775 1917 Type II. Brilliant Uncirculated. Full head. A lovely example.
- 776 **1917 'D' Type II.** Brilliant Uncirculated. Full head. Very sharply struck. One of the finest we have ever seen.
- 777 **1917 'S' Type II.** Brilliant Uncirculated. Full head and shield. Characteristic weak date.
- 778 1918 Brilliant Uncirculated, full head. Boldly struck, lightly toned.
- 779 **1918 'D'** Brilliant Uncirculated. Almost a full head. As sharp as we have seen.
- 780 **1918 'S'** Brilliant Uncirculated. Full head, nicely struck.

THE VERY RARE

1918 OVER 17 'S' QUARTER

Lot No. 781

- 781 **1918/17 'S' Brilliant Uncirculated.** The rarest Liberty standing Quarter. Sharply struck. Partial head, full mint lustre. The overdate is so bold that it can be seen with the naked eye. So rare that one has to completely disregard catalog listing when bidding on this coin. At the Wolfson Sale in May 1963 an example realized \$3,000.00 on an estimate of \$2,250.00. We know of a private sales record of \$5,000.00 for an example sold over 1½ years ago. We would not be surprised if a record price was obtained for this rarity.
- 782 1919 Brilliant Uncirculated, lightly toned, full head.
- 783 **1919 'D'** Brilliant Uncirculated. As full a head as has been seen by us. A very rare coin, especially so choice.
- 784 **1919 'S'** Brilliant Uncirculated, light toning. A full head. A very difficult coin to obtain so well struck. Will no doubt realize a record price.
- 785 1920 Brilliant Uncirculated, practically a full head.
- 786 **1920 'D'** Brilliant Uncirculated. Full head. One of the sharpest strikes we have seen.
- 787 **1920 'S'** Brilliant Uncirculated. Full head. A well struck example. Rare so choice.
- 788 **1921** Brilliant Uncirculated. Full head. Seldom offered so choice. Worth a bid in excess of the Guidebook.
- 789 1923 Brilliant Uncirculated. Full head.
- 790 **1923 'S'** Brilliant Uncirculated. As close to a full head example as has been seen. (See note at beginning of this series). Very rare.
- 791 1924 Brilliant Uncirculated. Full head.
- 792 **1924 'D'** Brilliant Uncirculated. Full head. Scarce.
- 793 **1924 'S'** Brilliant Uncirculated. Practically a full head.
- 794 1925 Brilliant Uncirculated. Full head.
- 795 1926 Brilliant Uncirculated, practically a full head.
- 796 **1926 'D'** Brilliant Uncirculated. One of the few examples we have seen so well struck and having a full head. Usually seen weakly struck on the head.
- 797 **1926 'S'** Brilliant Uncirculated. Full head. Boldly struck, usual weakness in lower shield area, characteristic of this date and mint. One of the finest examples known. Rare.

U. S. QUARTERS, HALF DOLLARS

799 1927 'D' Brilliant Uncirculated, partial full head.

THE VERY RARE 1927 'S' QUARTER

Lot No. 800

- 800 **1927 'S' Brilliant Uncirculated.** As sharp an example of this rarity as we have handled. The head is not absolutely full, and there is some weakness in the shield area, however, not having seen a sharper example we presume it is among the finest known. (See note at beginning of this series). Extremely rare, especially so choice, and should command a bid far in excess of the \$700.00 Guidebook valuation.

EXTREMELY RARE CONFEDERATE COINS

NOTE: The following lots of Confederate coins comprise the most comprehensive listing ever offered at Public Auction. They are as follows: The Confederate Cent in Gold, in Silver, and in Copper, the Restrike Half Dollar, the 1861 'O' obverse die break Half Dollar.

The origin of the Confederate Cent is so full of human interest that the story is always interesting and will bear repetition occasionally as new collectors come into the field. It was told by Capt. John W. Haseltine, an old time coin dealer in Philadelphia at the convention of the American Numismatic Association in that city in 1908. It is reprinted here, exactly as it appears in the August, 1942 issue of the Numismatist. Captain Haseltine said:

"I have been asked to say something about the so-called Confederate cent. A little circular issued by myself and Mr. Randall some years ago tells all the history of the striking of those pieces, but I do not think it mentioned how I obtained the dies. One day I was told by a gentleman that a bartender in West Philadelphia had a Confederate cent. I doubted it. Mr. J. Colvin Randall (now deceased) was told the same. He conferred with me in reference to it and we decided that if either of us obtained it we would share any profit that would accrue from it. I saw the bartender and purchased the coin from him. It was in nickel and he said he received it over the bar. I knew by the head on the obverse it was Mr. Lovett's work. I called on Mr. Lovett, and he denied ever having made the dies. Numerous times I called to induce him to give me some information about them, but he always stuck to this story that he did not make them until one day, when he became a little careless, he pulled out a drawer in one of his cabinets and I beheld a line of little Confederate cents. Of course, I questioned him at once, and he then owned up and told me that he had eleven of them, but formerly there were twelve, he having lost one. He said he received the order to make them for the Confederacy through a well-known jewelry firm in Philadelphia and that his wife became timid about his delivering them for fear the United States Government might arrest him for giving assistance to the enemy, so he was afraid to show them. I purchased the dies from him and as you all probably know, did not strike any in nickel, considering them to a certain degree as originals, but we had three struck in gold, and I believe five in silver, and fifty-five in copper, the die breaking on the fifty-ninth piece, which is in existence showing the break in the die."

Further research shows that he erred in the figures verbally given at that convention. The brochure prepared by J. Colvin Randall and Captain Haseltine indicates that 7 were struck in Gold, 12 in Silver, and 55 in Copper.

There are perhaps only 2 specimens in Gold, 4 in Silver, and 40 Copper specimens in private collections; the balance is either in Museums or lost.

THE CONFEDERATE CENT IN GOLD

Lot No. 992

- 992 **1861 Cent.** Obverse: Head of Liberty with cap, facing left, six stars incused on band, date below, **Confederate States of America** around. Reverse: 1 CENT in wreath. **GOLD.** Brilliant Proof. This specimen is from the King Farouk Collection. There aren't any recent auction records or reports of private sale to aid us in estimating its value. This is the first specimen we have handled at Public Auction in the past 30 years. Considering its great rarity, we feel it could possibly bring \$7,500.00.

THE CONFEDERATE CENT IN SILVER

Lot No. 993

- 993 **1861 Cent.** Same design as the preceding. **SILVER.** This specimen is from the George H. Earle Collection sold in 1912. A superb delicately toned Brilliant Proof with a tiny obverse edge nick. Again, we do not have current records for this coin but we feel a fair estimate for the coin would be \$2,500.00.

THE CONFEDERATE CENT IN COPPER

Lot No. 994

- 994 **1861 Cent.** Same design as the preceding two lots. **COPPER.** Brilliant Proof, light iridescent toning. Unfortunately we do not have a pedigree for this specimen. The Egolf specimen, also a Proof, realized \$1,700.00 in 1961. We would not be surprised if this specimen fetched \$2,000.00

RARE 1861 CONFEDERATE RESTRIKE HALF DOLLAR

Lot No. 995

- 995 **1861 Half Dollar** with obverse of regular issue of 1861. The reverse was smothered down and the Confederate die struck thereon. Liberty cap and shield within wreath; "Confederate States of America" above; "Half Dol." below. Records show only 4 original coins were struck (due to a lack of available coin), however, only two are known to exist. The **Restrike** offered here, was struck by J. W. Scott in 1870. Only 300 were struck (estimated) after which the die broke. This coin is in Extremely Fine condition with much mint lustre still adhering. This coin is quite popular and very much in demand today. Recent sales records of over \$450.00.

THE RARE 1861 'O' CONFEDERATE OBVERSE HALF DOLLAR

Lot No. 996

- 996 **1861 'O' Half Dollar.** Regular Issue. The obverse die, with the fine break from the edge to the nose, was used to strike the Original Confederate Half Dollar. This Uncirculated specimen is fully proof-like with a touch of friction in the field. It fully equals if not surpasses the Egolf specimen which realized \$280.00 in 1961.

EARLY PROOF SETS
